

The Professional Engineering & Technology (Scotland)

The Professional Engineering & Technology (PET) was formed as a means of providing a unified structure of the engineering profession to operate on a regional basis and replaces the PEI.

Whilst PET (Scotland) is a country wide organisation the only group that is currently active is that based in Aberdeen and consequently mainly covers the North of Scotland.

The primary objective of PET Scotland is to provide a proactive focus for collaboration and partnerships in joint ventures that benefit the profession and the community as a whole.

PET (SCOTLAND) PROGRAMME DIARY 2012-2013

ORGANISATIONS REPRESENTED IN THIS BOOKLET

Aberdeen Association of Civil Engineers	AACE
Aberdeen Maritime Branch	AMB
Aberdeen Mechanical Society	AMS
Chartered Quality Institute	CQI
Energy Institute	EI
Institute of Corrosion	ICorr
Institute of Physics in Scotland	IOPS
Institution of Engineering & Technology	IET
Institution of Mechanical Engineers	IMechE
Institution of Chemical Engineers	IChemE
Mining Institute of Scotland (Regional Society of IoM3)	MIS
Royal Aeronautical Society	RAeS
Techfest-Setpoint	
Society for Underwater Technology	SUT
Welding & Joining Society	W&JS

ABERDEEN MARITIME BRANCH (AMB)

**(Incl. Institute of Marine Engineering, Science and Technology,
The Royal Institution of Naval Architects, & Institution of
Engineers and Shipbuilders of Scotland)**

With the fourth largest membership area in the UK and overseas, the AMB is an integral part of the learned society. The Joint Branch's aim is to enhance its professional reputation by continuing to develop all aspects of naval architecture, marine and offshore engineering via regular meetings and technical visits.

CHAIRMAN: Sam Chadwick

Website; <http://iopscotland.org/>

The Institute of Physics in Scotland is the Scottish Branch of the IOP and is a charity registered in Scotland No SC040092. The IOP is a scientific membership organisation devoted to increasing the understanding and application of physics. It has extensive worldwide membership and is a leading communicator of physics with all audiences from specialist through government to the general public.

INSTITUTION OF ENGINEERING & TECHNOLOGY (IET)

The Institution of Engineering and Technology is one of the world's leading professional societies for the engineering and technology community. The IET has more than 150,000 members in 127 countries. The IET provides a global knowledge network to facilitate the exchange of ideas and promote the positive role of science, engineering and technology to the world.

Nb Unfortunately the events for IChemE did not arrive in time,

INSTITUTION OF MECHANICAL ENGINEERS (IMechE)

The **IMechE** aims to be the foremost body for the advancement of mechanical engineering. On a national level it links with Government, academia, research and industrial bodies in the support and development of key industries. Our local programme presents CPD opportunities via technical meetings and seminars.

ROYAL AERONAUTICAL SOCIETY

Highland Branch (RAeS)

The Royal Aeronautical Society exists in order to promote the general advancement of Aeronautical Science and promote the profession of Aeronautics. The RAeS is the only multidiscipline aerospace institution embracing membership in all aerospace community sectors at all levels ranging from those embarking on their career to senior managers. Membership includes aircrew, operations staff, ATC, engineers, education, research, manufacturing, marketing, law, etc. The **RAeS** is a nominated body of the Engineering Council and offers a preferred route to registration for aerospace engineers to provide recognition of their professional competence.

TechFest-SetPoint STEM Ambassadors Programme

The STEM Ambassador programme brings illumination to the classroom and switches on the minds of young people to the potential of STEM and careers.

STEM Ambassadors are everyday people from real working backgrounds who volunteer their time to act as inspiring roles to young people.

They provide a refreshing change to regular classroom activities and open doors to a whole new world for young people. This helps them to see STEM subjects and careers with a fresh perspective by engaging their interest and imagination in new ways

What can an ambassador do?

- Help at careers fairs or conventions
- Give careers talks in secondary schools
- Help with interschool activities
- Develop resources to be used in schools
- Assist a school with a specific project
- Participate in mentoring senior pupils either face to face or via email
- Develop a long term link with a local school, for example helping a science club

You can register as a STEM Ambassador at: ambassadors@abdn.ac.uk

Contacts: Sam Cordiner
&
Sarah Chew

Tel (bus); 01224 274348

SOCIETY FOR UNDERWATER TECHNOLOGY
(Aberdeen Branch)
(SUT)

SUT is a multi discipline learned Society bringing together individuals and organisations in more than 40 countries who have a common interest in underwater technology, ocean science and offshore engineering. The Society organises an extensive programme of events, many of which are held in Aberdeen, designed to fulfil the requirements of a diverse membership and all pockets.
